

Cleaning & maintenance

CLEANING AND MAINTENANCE OF AGGLOTECH PRODUCTS:

In order to maintain the surface in perfect conditions, it is necessary to follow our instructions. The following card must be delivered in perfect conditions.

The following instructions have to be given to the immovable property with the following advice: in case of non-observance the warranty expires!.

THE MARMOCEMENTO AGGLOTECH MUST NOT BE TREATED WITH:

Detergents containing acid

Detergents containing alcohol

INITIAL CLEANING AFTER THE POSING:

With neutral detergents without acids to use according to the producer's instructions.

PROTECTIVE TREATMENT:

After the cleaning apply a water-oil repellent treatment on the AGGLOTECH product and on the joints in order to make the whole surface perfectly protected.

DAILY CLEANING:

Use a neutral detergent which must not leave residues on the surface to use according to producer's instructions.

IMPORTANT:

For a perfect maintenance of the AGGLOTECH surfaces, the dirt must be removed regularly. The daily cleaning must be done correctly and effectively.

AGGLOTECH IS ALWAYS AT YOUR DISPOSAL FOR ANY EXPLANATION AND COMPLETION.
